ELECTRICAL ENGINEER

The Heygate Group of Companies is a privately owned and family led Group. There is an opportunity for a full time Electrical Engineer to join their close-knit team at their Tring Mill. Applicants must have a recognised qualification and be used to servicing a diverse range of equipment. A full understanding of electrical drawing and symbols along with experience of production plant systems including PLCs, VSDs, soft starts, weighing equipment, sensors and a variety of process control equipment is essential.

Experience of PLC systems and software, in particular Mitsubishi or Siemens would be an advantage along with inspection and testing qualifications and any previous experience of food industry plant machinery

Full time 37.5 hours per week plus overtime, Contributory Pension Scheme, Salary negotiable according to experience.

Please apply in the first instance at www.heygates.co.uk

Closing date: 16th September
