

**Bakery Manager  
(£Competitive)  
Banbury**

In this newly created role following the growth in the business, you will report to the Site Manager focusing on continuous improvement and leading in improving areas such as operational performance, quality, yield and waste. You will be responsible for the management of all production personnel ensuring that your team is working within a safe environment, meeting production schedules and complying with customer and quality standards.

You will be a dynamic individual with proven experience of leading and developing a production team within a large scale, high speed, automated manufacturing environment. You will have demonstrable experience of delivering improvement projects and cost saving initiatives. Ideally you will have experience of the plant bread industry and have knowledge of improvement programmes such as Kaizen, Six Sigma, Lean or WCM.

If you work well under pressure, are a good team player with a can-do attitude and have the motivation, commitment and flexibility we would love to hear from you.

Closing date; 31 January 2020
